That Grand and Glorious Feeling

When the long day's work is done and your thoughts begin to drift homeward, wouldn't you be happy, as you headed for the fireside, to know that you were nestled among the healthy fragrance of the pines and the pure air of the sea.

Put a house on that Carmel lot of yours. It will bring you a satisfactory income.

Carmel to Have 2-Day Cleanup Campaign

Carmel is to have a Clean Up—and it needs it.

Tomorrow and Saturday are the days. The Community Club has so planned.

The whole town is expected to cooperate, so that we may present a Clean Town to the host of summer visitors.

Lots and yards and streets in both the residence and business sections should be cleared of cans, papers and other unsightly debris.

Arrangements have been made to have all this gathered matter removed. It should be placed in containers where the collector can pick it up quickly. No garbage will be taken; that will be gathered in the usual order.

Do not confine your activities to your own premises; give some attention to the adjacent lots.

The help of the school children is particularly desired. They are asked to provide themselves with pointed sticks and sacks. Papers are to be gathered in this way. When the sacks are filled they may be left near the City Hall to be emptied into a truck.

Now, everybody pitch in and help to make our premises, vacant lots and streets 100 per cent Tidy, for

"We are doin' things in Carmel,
And we're doin' them for keeps.
For the enterprise that prompts us
Is one that never sleeps.
We are playing to the limit in this
Cleaning-up campaign,
And the hearts that warm the doers
are with energy aflame.
There's a hustle and a bustle and
a rustle 'mongst the clans,
Each member stepping lively to
the music of tin cans.
And we'll never lag nor straggle
till we've cleaned this little town,
For we've started in to do it, and
and we'll do it all up brown."

Monterey defeated Salinas in the baseball game last Sunday, and is now in third place.

This City of Ours Is Growing Rapidly

That Carmel-by-the-Sea is growing rapidly every observing resident knows. It is growing more rapidly than any of the incorporated cities in Monterey county.

By growing is meant the permanent population is increasing; it is now close to 750. A growing population means that more housing facilities are required; these are being provided.

Our grammar school is crowded, and next term it will be necessary to have more teachers than are engaged.

New business concerns are from time to time locating here, and more traveling salesmen than ever now "make" Carmel. Our Post office business in all branches is growing in volume each month. Construction of an hotel on the banks of the Carmel River is contemplated.

The best indication, however, of the city's growth is a record of the building permits issued by the City Clerk

For the four and a half months ending May 15, this year, the figures are as follows:

	Permits	Value
New buildings	24	$55,349
Additions	16	4,425
Garages	7	1,945
Totals	47	$61,719

The total value is probably nearer $70,000, as in most cases the amount given in the application for a permit is exceeded when building operations are under way.

Assuming that the city tax rate will remain as it is—$1 on each $100 of valuation—it will be seen that the municipality's income from taxes will be increased by $700.

If ever there was a time not to be niggardly about street improvements, now is the time. Ocean Aven ue should be entirely paved, curbed and guttered before the year is out, and adequate work on other thoroughfares should be going on without intermission.

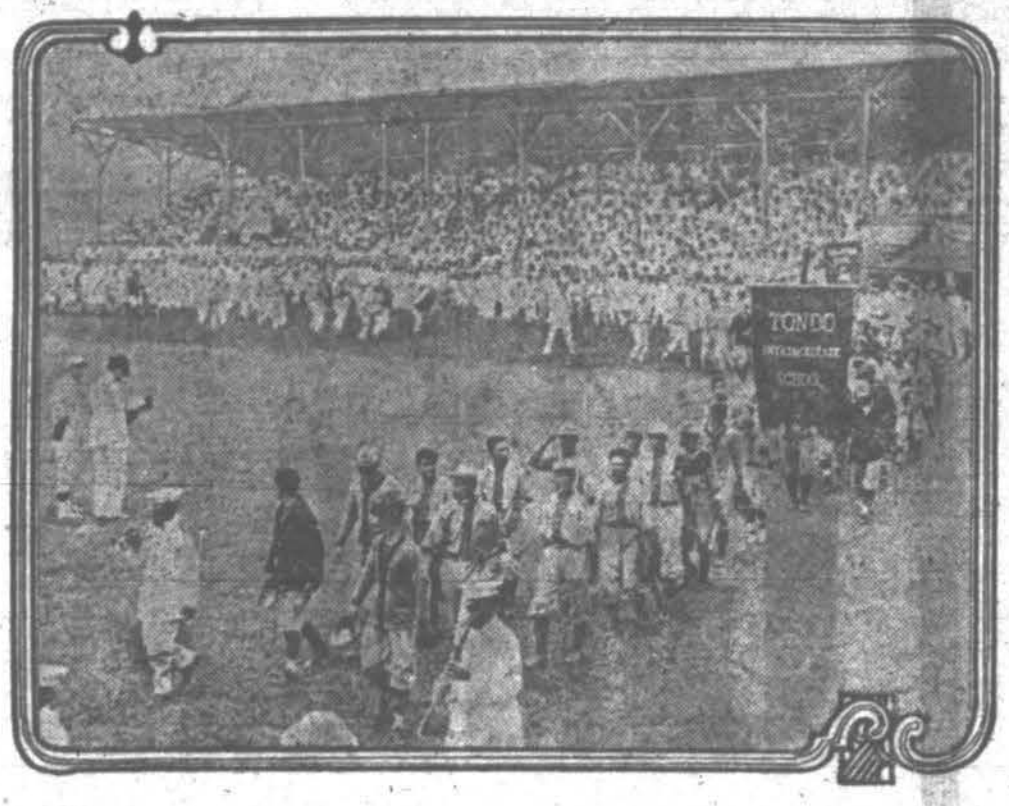
"PLAY BALL!"

They can do it the year around in the Philippines.



Here's indisputable evidence that the Filipino people have been Americanized! The great American game of baseball is the rage in the islands. This photograph shows a parade which preceded one of the big games in Manila. Baseball is played from one end of the archipelago to the other, and, as in other branches of athletic sports, some classy players have been developed.

There Has Been Much Misrepresentation in America About People and Conditions.

By MAXIMO M. KALAW,
Secretary of the Philippine Mission.

Maximo M. Kalaw.

A certain lady at the St. Louis Exposition saw at a ballroom a brown complexioned man in faultless evening dress and accosted him with the inquiry, "I suppose you are Japanese, sir?"

The man addressed replied "No, madam."

"Then you must be Chinese," she said.

"No, I am not. I am a Filipino," he replied.

"How's that?" asked the lady. "I thought they were all savages living in the woods."

"Well, I'll tell you how I came here," he said. "A month before I left the Philippines I was living in the woods, but the American Governor decided to catch as many wild men as possible, train them and send them over here. So here I am, just as you see." And the St. Louis lady actually believed him.

That is what you would call fancies about the Philippines. The fact is, however, that the 11,000,000 Filipinos and their ancestors have been civilized and Christians for 300 years; that the non-Christian population, according to the census of 1918, is only 500,000, and even these are not all uncivilized.

Another fancy is that not until the coming of the Americans were school buildings seen in the Islands, roads built, or substantial houses erected. Do you know that for hundreds of years the Filipinos have had colleges and schools and that the University of Santo Tomas is only twenty-five years older than Harvard? That as early as 1866, out of a population of 4,000,000 people, there were 841 schools for boys and 833 for girls? That in 1892, eight years before the coming of the Americans, there were 2,137 schools?

"To grant self-government to Luzon under Aguinaldo would be like granting self-government to an Apache reservation under some local chief." Thus spoke a former President of the United States during the Filipino-American war. Exaggeration could be an excuse at a time when the dignity of the American people demanded the extinction of Filipino opposition, but do you know that the Philippine Republic, before the American occupation of the Islands, had the approval of prominent Americans who were on the spot—like John Barrett, Director of the Pan-American Union, who compared it favorably with the Japanese government? That Admiral Dewey considered the Filipinos better fitted for self-government than the Cubans? That they had drafted a constitution at Malalos which elicited the approval of distinguished Republicans like the late Senator George F. Hoar? That before the coming of the Americans they had produced national heroes like the martyred Jose Rizal, pronounced by a Republican congressman, Representative Cooper, as the noblest victim that has ever fallen into the clutches of tyranny?

And do you know that the Filipinos have not had for hundreds of years any caste system, blood distinction or royal families, and that, unlike their oriental sisters, they are the only Christian people in the orient?

People have pictured an ignorant mass of Filipinos, illiterate, poor, living a life of servitude for a few wealthy land owners and foreigners, with no houses or farms or property of their own. Do you know that 70 per cent. of the people above ten years of age can read and write and that this percentage of literacy is almost as high as some of the states of the Union? That it is higher than in any country of South America, higher than the literacy of the Spanish people, and unquestionably above that of any of the new countries recognized in Europe? Do you know that there are a million and a half farms in the Philippines and that 96 per cent. of these farms are owned by Filipinos. In other words, that out of the 11,000,000 Christian Filipinos, 8,000,000 of them at least live on their own farms, with houses of their own, independent of any absentee landlord or foreign master? That 91 per cent. of the urban property consisting of houses and lands is owned by the natives of the Philippines, and only 9 per cent. is in the hands of foreigners? Yet these are facts cabled by Acting Governor Charles Emmett Yeater to the War Department from the recent census estimates.

Having solemnly promised the Filipinos their independence and having gone before the world as the champion of self-determination, the Filipino people cannot understand how America can consistently refuse to make good these promises.

CLIMATE OF THE PHILIPPINES.

The Philippine Islands have a mildly tropical climate. The nights are cool and sunstrokes are unknown. The temperature record for the past thirty years shows an average of 80 degrees.
